- D. Bead locks allowed.
- E. NO temporary use (donut) tires allowed.

ROLLCAGES

Modified Mini-Stock must have a minimum of a four point cage. Construction will be 1 1/4" black pipe schedule 40 minimum or 1 1/4" cage tubing, minimum .095" wall.

All cars and drivers are required to follow GFRA GENERAL RULES. Drivers in this class must have a minimum of 1 season of dirt track racing experience or by invitation of the class. New cars which are not completely legal may be allowed to compete one time only, at the discretion of the Modified Mini-Stock class inspectors. At no time will an unsafe car be allowed to race. In the event of a question of the interpretation of any rules, the interpretation of the Modified Mini-Stock class will be the official interpretation and will supersede any and all other possible interpretation. If a racer is in doubt on the interpretation of any rule they may ask for an official decision of the Modified Mini-Stock class in attendance at that race. The decision will be given in writing to the party requesting the interpretation. Where there is no specific rule to govern any occasion, the decision of the Modified Mini-Stock class shall be the final decision.
